

EL MONTE UNION HIGH SCHOOL DISTRICT CLEAN MOBILITY IN SCHOOLS PILOT PROJECT

MEDIA ADVISORY

El Monte Union to Celebrate Earth Day with Clean Mobility in Schools Info Fair

WHAT: In partnership with the California Air Resources Board (CARB), the El Monte Union High School District will host a Clean Mobility Info Fair for the school community to gather in celebration of Earth Day.

During the event, attendees will have the opportunity to learn more about clean energy transportation, meet the District's project partners, engage with high school green club members, view all-electric vehicles, visit exhibit booths and participate in several photo opportunities.

WHEN: Thursday, April 20
Doors open at noon • Program begins at 12:30 p.m.

WHERE: El Monte High School
3048 Tyler Ave., El Monte, CA 91731

DETAILS: In 2020, El Monte Union was awarded a \$9.8 million grant by CARB to fund a menu of Clean Mobility measures that promote the use of zero-emission vehicles and clean transportation options for students, parents and staff, with the added benefit of a pilot career technical education curriculum that aims to engage students in clean energy career pathways.

The Clean Mobility in Schools Pilot Project transformed mobility for EMUHSD by adding 11 new zero-emission buses to the fleet, 11 all electric utility maintenance carts and four electric ride share vehicles, allowing the District to serve more students and plan for more holistic, active transportation to ensure safety and improve congestion.

Parking will be limited during the Clean Mobility Info Fair event. Attendees are encouraged to use clean transportation by carpooling, walking, riding a bike or taking the bus. El Monte High School is served by Metro Local 287 and the City of El Monte Orange Route.

Coverage and/or inclusion of this fair in your calendar of events is welcome and greatly appreciated.

Partnering with us for
a better tomorrow:

This work is funded through the Clean Mobility in Schools Pilot Project grant awarded to the El Monte Union High School District. The Clean Mobility in Schools Pilot Project is part of California Climate Investments, a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities.
