Buena Park School District Honors Students for Perfect Test Scores

BUENA PARK, CA – Sixty-one Buena Park School District students were recently honored for achieving the highest possible scores on state standardized tests for English language arts (ELA) and math taken in spring 2019, earning them praise from friends, family members and the District.

Friends, family members and District staff cheered on the students, who range from grades four through eight, during a special ceremony on Nov. 13 at the Buena Park Community Center. Of the 61 awardees, 13 students were honored for achieving perfect scores on both ELA and math state tests.

Buena Park School District's ELA and math state test scores have shown growth over the last school year, with the District increasing its ELA scores by 5.3 percentage points and 7.2 percentage points for math scores.

Superintendent Dr. Ramon Miramontes said the perfect test scores stemmed in part from the District's strong academic rigor and enrichment programs, which focus on boosting literacy and science, technology, engineering and math skills.

"Congratulations to all of our students who obtained perfect scores – you have accomplished an amazing feat that showcases your excellence," Miramontes said. "Buena Park School District is dedicated to ensuring that all of our students are high achieving and we look forward to continuing this success in the years to come."
