## Montebello Unified to Exhibit STEM Projects During Second Annual Science Fair

**WHAT:** Montebello Unified is combining science, technology, engineering and mathematics (STEM) curriculum and California Standards with fun for 60 students who will participate in its second annual Science Fair. The event will feature a competition among students in fifth grade while exhibiting projects from students in grades six through 12.

The Science Fair is designed as an opportunity for students to showcase their creativity and knowledge of the world around them through science project competition. It will focus on STEM instruction at MUSD schools.

**WHEN:** Wednesday, June 8, 2016  
4-6:30 p.m.

**WHERE:** Washington Elementary School  
1400 W. Madison Ave.  
Montebello, CA 90640

**DETAILS:** Science projects will represent earth science, life science and physical science. The top three fifth-grade projects will receive gold, silver and bronze medals. All students in grades five through 12 will receive participation medals.

The high school projects will be displayed in an exhibition only. The middle schools have been invited to participate in the high school exhibit.

###

Montebello Unified School District is a dynamic learning institution employing top-quality educators. It is the combined work of many that allows the District to continue educating more than 30,000 students every year using the 40 Developmental Assets at all of our school sites. It is through everyone's efforts – students, parents, teachers, staff and administrators – that we are achieving the District's number one goal of raising student achievement.
