## Open Enrollment for PUSD Families Begins Nov. 2

Intra-District program encourages parents to explore academic options

**POMONA** – From Nov. 2 through Dec. 18, Pomona Unified families can take advantage of the District’s Open Enrollment program, which provides parents with the opportunity to choose a school that best fits the needs and interests of their child, as well as explore the District’s award-winning programs and high-quality instructional curriculum.

Students who reside within the boundaries of Pomona Unified may apply for enrollment at any Pomona Unified School.

Each school has unique characteristics that offer students an array of academic, enrichment and extra-curricular programs. They include science, technology, math and science (STEM) academies; dedicated pathways in health and medical science, business, foreign languages, visual and performing arts, and media and technology; engineering and design courses of study; robotics and solar boat courses; and dual language immersion programs.

The District is also proud to have partnerships with local universities such as Cal Poly Pomona, Western University of Health Sciences and University of La Verne to support students learning.

Pomona Unified also prioritizes student safety and parent engagement, with various after-school learning programs and parent centers across District schools.

Applications are available at [www.pusd.org](http://www.pusd.org) and must be submitted to the PUSD Pupil Resources office before 4 p.m. on Dec. 18. Late applications will not be accepted.

For more information, call Pupil Resources at (909) 397-4648, ext. 28200.

For more specific information on schools and programs they offer, visit [www.pusd.org](http://www.pusd.org).

###

**OUR MISSION:** The Pomona Unified School District provides a well-rounded and challenging educational program of the highest quality, empowering students to lead productive, fulfilling lives as lifelong learners. Supported on a foundation of integrity and respect, students will gain academic excellence and take personal and community pride as responsible citizens and productive participants in a diverse society and global economy.
